Specifications

Certifications

The fixture is ETL and cETL listed to U.S. and Canadian safety standards for wet locations.

Housing

The head assembly is sand cast aluminum roof and die-cast aluminum louvers with easy access for re-lamping. Fixture column is extruded aluminum, 8" diameter with .125" wall thickness. Fixture base is constructed of heavy duty cast aluminum.

Ballast

The ballast for HID are high power factor core and coil, multi-tap. Ballasts for 26/32/42W compact fluorescent are electronic, universal voltage 120-277V, 50 or 60Hz.

Optic Assembly

Tempered ribbed glass globe with high temperature, molded silicone gasket for positive sealing of the optical chamber. House side shield is supplied with each fixture (optional use).

Mounting

Galvanized steel anchor bolts and twist-lock feature provided for easy mounting. Column is secured to base with stainless steel locking screw.

Finish

BK-BZ-WH-GR-NA-GY thermoset polyester powder coat which is electrostatically applied and bonded by heat fusion thermosetting. VR finish is hand-rubbed over a black thermoset polyester powdercoat. Limestone and Sandstone finish is bonded to the aluminum substrate.

Safety

Caution: Care should be taken when specifying fixtures for use in pedestrian walkways as lens temperatures from certain lamps could cause injury. Consult factory for more information.
